

# Infant Optics DXR-8 Lens Replacement

How to replace the lens on the Camera Unit of the DXR-8.

Written By: Marianne Anthonette Miranda

## INTRODUCTION

Use this guide to replace the lens of the Camera Unit from the DXR-8.

## Step 1 — Lens

- Grasp the lens with your index finger and thumb and twist to the left until it detaches.

## Step 2

- Choose a new lens.

## Step 3

- Place the replacement lens on top of the opening and twist to the right until it is secured.
